

## abNETWORK distributes NETASQ solutions in the French-speaking regions of Belgium

Paris, May 25, 2009

NETASQ, a European supplier of network and mail security solutions, has appointed abNETWORK, a network equipment provider, as a distributor in the Benelux. This makes abNETWORK the third distributor of NETASQ solutions in Belgium. After a partnership of nearly ten years and having achieved the Platinum Partner status, abNETWORK will now concentrate on the distribution of NETASQ solutions, with focus on the French-speaking areas of Belgium and Luxembourg.

The cooperation between NETASQ and abNETWORK was forged many years ago. At the time, abNETWORK had already shown that it possessed the appropriate knowledge, skills and expertise to provide NETASQ customers with an optimal service. In 2008, abNETWORK became the first NETASQ partner in Belgium to be awarded Platinum status, the highest level in the NETASQ Partner Program. Therefore, the organization has an officially NETASQ-certified support and training centre and Expert + certification.

**Luc Crupi, Managing Director of abNETWORK** explained: "We saw a great demand for a professional distributor of NETASQ solutions in Wallonia and we decided to fill that void. For us it was only a small step, because we already possess the necessary knowledge of these products. Since we now have become a distributor of NETASQ, the partnership has only become stronger. "

"We have been working together for years with abNETWORK" said **Rolf van Gent, Regional Manager for Benelux and Nordic countries at NETASQ**.

"This is not just another distributor, but one with extensive knowledge of our products and the market. Given this, our customers in that particular geographical area are assured of the continuity they need and it consolidates the presence of NETASQ in this region. "

### **About abNETWORK**

abNETWORK is a structure of 12 employees that is active and reactive in the fields of network installation, IP telephony and security. We rely on more than 20 years of experience and on field knowledge that we constantly keep up to date in order to design customized, optimized and future-proof solutions for each and every one of our clients.

Our approach is based not only on the understanding of their needs but also on the search for solutions that allow, for example, improving productivity and enhancing customer service but also acquiring better work comfort.

### **About NETASQ**

With more than 45,000 products sold worldwide to date via a distribution channel of more than 300 partners spread out in more than 30 countries, NETASQ has made a name for itself as a major player in the information security field. NETASQ solutions efficiently meet the needs that enterprises have for a unified form of protection from network threats and spam.
