

SME Security Solution of the Year

NETASQ's Flagship Unified Threat Management Firewall NETASQ U70, Awarded "SME Security Solution of the Year"

NETASQ U70 wins prestigious award at this year's Computing Security Awards

London, 14 November 2011 Network security pioneer and innovator NETASQ, has won a coveted award from the recent Computing Security Awards in a ceremony that took place on November 3rd in London. Its flagship firewall for small and medium-sized businesses, the NETASQ U70, fought off stiff competition to win SME Security Solution of the Year.

Francois Lavaste, NETASQ President & CEO commented, "Our achievements in delivering a product for the SME market that delivers high protection, with absolutely no compromise on performance has been confirmed with the winning of such a prestigious award. We work hard to ensure that all our products deliver the most innovative technology for securing businesses of all sizes, and such awards validate our success and commitment to that approach."

[NETASQ U70](#) and NETASQ U30 appliances are based on the same optimised software and hardware architecture as the enterprise models and benefit from the same award-winning technology that gained NETASQ the most comprehensive EU and NATO certifications of any enterprise firewall. As with all NETASQ UTM devices, the NETASQ U70 comes with all levels of protection delivered as standard and enabled by default without compromising performance or control.

About NETASQ

With over 75,000 unified threat management firewalls deployed to business, government and defence organisations of all sizes, NETASQ delivers solutions of unrivalled performance, protection and control and the most comprehensive EU and NATO certifications of any firewall. NETASQ is present in 40 countries and has been securing businesses since 1998.
