

NETASQ expands its international distribution network

New VAD appointments support global growth

London, 8th December, 2011.

Network security pioneer and innovator NETASQ has today announced 10 new partnership agreements with leading value-added distributors across the globe, in a bid to drive growth in new territories. As the company continues to expand its geographical reach during 2012, it will continue to look to partner with key distributors that have expertise in network security solutions and help grow NETASQ's business in line with its targets.

The 10 new partnerships will allow value-added distributors and their resellers to offer a complete portfolio of NETASQ network security solutions. They include South Africa, NetXactics; Australia, OpenChannel Solutions; Brazil, M3 Corp; Chile, CompuNet; China, BizSecure Asia-Pacific; Hungary, Yellow cube; Indonesia, PT.Catalyst Solusi Integrasi; Italy, XERITY; UK, MetroVAD; Scandinavia and Finland, Pedab.

"The choice of these partners and their geographical distribution is perfectly in line with our targets for international growth. It is in NETASQ's best interests to select the most talented partners with the highest possible level of expertise. Moreover, we continue to complement this already advanced know-how with comprehensive training courses covering our whole product range", said Dominique Meurisse, NETASQ's Executive VP for Sales.

NETASQ Unified Threat Management solutions come with all critical levels of protection enabled by default and due to their unique architecture, deliver this protection without compromising performance, security or control. This unique combination of performance, protection and control has been recognised by its customers worldwide, but also by major government and defence organisations including NATO.

About NETASQ

With more than 75,000 UTM firewalls deployed in companies of all sizes, government bodies and defense organizations, **NETASQ** develops solutions for the market that are unparalleled in terms of performance, protection and control. Their certification at the highest level in Europe (**EU RESTRICTED, NATO and EAL4+**) make them all the more unique.
